

The ~~w~~World has witnessed ~~a great deal of many~~ immigrations ~~arising new in the past~~ centuries. ~~I~~mmi~~g~~rations not only leading to ~~the~~ outbreaks but also ~~influencing~~ ~~influence on~~ small areas ~~and~~ may result from many factors such as environmental disasters and unemployment. However, no matter why people ~~are migrating~~ migrate to other countries, it is quite ~~explicit obvious~~ that ~~the~~ immigration ~~can can~~ be a severe problem having a number of detrimental effects on both immigrants and hosts. Population imbalance and transfer of diseases are some of the repercussions/outcomes/results of immigration. Nevertheless, to alleviate the problem, it is vitally important that immigrants become integrated into their adopted society. Thus, from my point of view, they should conform to the laws of their adopted country at any price. ~~Pursuing road laws and disobeying illegal practices can be regarded as mandatory steps to compromise with new country.~~

To begin with ~~road traffic~~ laws, it can be undoubtedly asserted that unless those migrating to other countries observe the laws ~~concerning the road~~, the traffic ~~can might/may~~ drift into ~~the~~ chaos. To elaborate on this point, if an immigrant drove on the ~~different side namely, in accordance with his country's road rule, wrong~~ ~~side/lane of the road~~, he or she would pose a great menace to the traffic, ~~which inevitably causes a number of people to die.~~ ~~Provided the that~~ immigrants complies with the traffic rules in their adopted country, they can ~~be~~ integrated into the society.

In addition to ~~road rule~~ the traffic rules, ~~upon objecting to practices prohibited by adopted country~~ by complying with the laws of their adopted countries, newcomers can ~~adapt to the country~~ integrate into the society. For instance, it is prohibited to gamble in some countries, whereas it is free allowed in others. Hence, the newcomer ~~cannot~~ should avoid gambling in a country where it is illegal in order to maintain ~~the cohesion if they are prone to gamble in the country where it is illegal~~ social order.

~~Carrying a gun, furthermore, in many countries is another reason why immigrants do not become integrated, is prohibited.~~

By ~~the~~ way of conclusion, immigrants wishing to integrate into their adopted countries should first of all comply with the rules of their adopted countries and avoid illegal practices. ~~having the desire to be cohesive unite with adopted countries whose people ensure that they observe the laws with regard to the road, whilst they refuse to the illegal actions such as gambling and carrying the firearm.~~ It is my contention that these are the most plausible ways to ~~hinder~~ contain the problems of immigration.

- To contain a fire – yangını kontrol altına almak
